

NTA TEAM

Sayan Roor

Саян Роор · Основатель и CEO

Founder & CEO

Almaty

> *A mechanical engineer by training, he went from design engineering to maintenance and production planning in uranium and gold mining and the Samruk-Kazyna Corporate University "Izbasar" leadership programme, then moved into software. Since October 2025 he has designed and built the whole of NTA himself — web, mobile app, backend, AI layer and white-label for cities — and leads the Visit Almaty pilot with the Almaty Tourism Bureau.*

ROLE AT NTA

- Vision and product strategy, priorities, final decisions
- Architecture and code of the whole platform, the AI layer and its costs
- The Visit Almaty pilot with the Almaty Tourism Bureau
- The face of the project for investors and partners, IP protection
- Building the team and assigning roles

EXPERIENCE → NTA TASKS

WHAT THEY DO	WHERE NTA NEEDS IT
Full-stack development, web and mobile apps, AI automation	→ **The whole platform: Next.js, Expo, Fastify + tRPC, PostgreSQL + pgvector, AI gateway — 1,800+ commits**
DevOps: VPS, Docker, Nginx, SSL, backups, CI/CD	→ **Our own production and staging servers, deploys, load tests**
Maintenance planning and scheduling (Kazatomprom and Cameco JV Inkai, Altynalmas)	→ **Availability and booking engine, taxi dispatch, release planning**
”Izbasar” leadership programme, Samruk-Kazyna	→ **Leading the team, working with the city and the public sector**
Design engineer	→ **An engineering approach to system architecture**
Statistics, business planning, market research	→ **Unit economics, fares and surge, pilot metrics**

EXPERIENCE

10.2025 — present

Founder & CEO
Native Travel App (NTA), Almaty

- Designed and built the whole platform: web, iOS/Android, API, AI layer, white-label
- The Visit Almaty pilot with the Almaty Tourism Bureau

10.2024 — present

Full-stack developer
NanoSudo, freelance

- Web apps and AI automation for businesses
- A production deployment guide in three languages (RU / EN / KK)

03.2024 — 01.2025

Planning and scheduling specialist
Altynalmas JSC, Almaty

07.2022 — 03.2024

Maintenance planning engineer
Kazatomprom and Cameco JV Inkai

- Planning general maintenance and repairs
- Production processes and automation

09.2020 — 12.2021

Manager — young specialist, "Izbasar" programme
Samruk-Kazyna Corporate University, Astana

08.2017 — 07.2018

Design engineer
Ziksto JSC, North Kazakhstan region

EDUCATION

2018 — 2020

Master of Engineering, mechanical engineering
M. Kozybayev North Kazakhstan State University

Bachelor's degree, mechanical engineering
M. Kozybayev North Kazakhstan State University

SKILLS

TypeScript · Next.js · React Native / Expo · Fastify + tRPC · PostgreSQL · Docker · DevOps · AI integrations · Maintenance planning · Statistics · Business planning
